

Mokhamad Arfan Wicaksono

AI/ML & IoT Trainer & Researcher

Bandung, West Java, Indonesia | marfanw@gmail.com | linkedin.com/in/marfanwicaksono

PROFESSIONAL SUMMARY

Researcher and educator specializing in IoT, AI, and Data Science. I lecture, train, and consult across IT domains, with published work in IoT systems and multimedia communications. My focus: applying technology to solve real-world problems.

PROFESSIONAL EXPERIENCE

AI/ML Specialist & Trainer

Jul 2025 - Present

Urbansolv, Indonesia

Leading AI and Machine Learning initiatives, providing training and consultation on ML implementation for various projects.

- Machine Learning Trainer for Kementrian PU programs
- Developing AI/ML solutions for urban development projects

Head of Department of Software Engineering Technology

Oct 2024 - Present

Akademi Digital Bandung, Bandung, Indonesia

Leading the Software Engineering Technology department, developing curriculum and training programs for digital skills education.

- Leading software engineering education initiatives
- Organizing workshops on Competitive Programming and AI
- Community engagement through BOOST YOUR BUSINESS programs

Head of Knowledge and Expert

Nov 2023 - Present

Enclave Kolaborasi Global (EKG), PT, Indonesia

Managing knowledge initiatives and providing expert consultation on data analytics and AI projects.

- Developed AI-based Proposal Checker Platform
- Conducted Data Analytics workshops for government and corporate clients

Academic Assistant

Aug 2023 - Dec 2024

KKTI STEI ITB, Bandung, Indonesia

Assisting in academic activities and research support at the School of Electrical Engineering and Informatics.

- Supporting academic programs and student activities
- Contributing to research projects

Researcher

Apr 2019 - Dec 2024

DSP-MC Laboratory ITB, Bandung, Indonesia

Conducting research on Wireless Sensor Networks, Multimedia IoT, and Machine Learning applications.

- Published multiple papers on IoT and Multimedia communications
- Led research on CoAP communication methods for IoT
- Developed ML-based video delivery optimization systems

Research and Development Intern

May 2017 - Aug 2017

PT Indo Cisc Network Security Consultant, Indonesia

Internship focused on network security research and development projects.

- Conducted research on network security solutions
- Contributed to R&D initiatives

EDUCATION

Master of Science in Informatics

Bandung Institute of Technology, Bandung, Indonesia

GPA: 3.51/4

- Research focus on Wireless Sensor Networks and IoT
- Published multiple research papers on Multimedia IoT
- PPMI Research Grant recipient

Aug 2019 - Dec 2021

Bachelor of Science in Information System and Technology

Bandung Institute of Technology, Bandung, Indonesia

GPA: 3.72/4

- Final Project: Development of Cat Care System Based on Internet of Things
- Silver Prize at d-Camp 2018 Engineering Solution Contest
- Active in organizational and committee activities

Aug 2014 - Jul 2019

High School Diploma in Natural Science Major

SMA Negeri 15 Bandung, Bandung, Indonesia

GPA: 50.7/60

Jul 2011 - Jun 2014

Junior High School Diploma in General Education

SMP Negeri 2 Bandung, Bandung, Indonesia

GPA: 35.95/40

Jul 2008 - Jun 2011

TECHNICAL SKILLS

AI & Machine Learning: Machine Learning, Deep Learning & CNN, Computer Vision, Data Science & Analytics

Internet of Things: IoT System Architecture, RFID Technology, Wireless Sensor Networks, Embedded Systems

Programming & Development: Python, Web Development, Database Management

Research & Education: Academic Research, Teaching & Training, Project Management

RESEARCH PROJECTS

Sistem Absensi Kampus Terintegrasi Berbasis AIoT dengan Pendekatan QoE dan Akuntabilitas Menggunakan RFID dan Computer Vision

Penelitian Dosen Pemula Kemdiktisaintek | 2025 | Ongoing

Integrasi Agentic AI dalam Pembelajaran Adaptif untuk Meningkatkan Kompetensi Bisnis Digital Mahasiswa

Penelitian Dosen Pemula Kemdiktisaintek | 2025 | Ongoing

Peningkatan Kinerja Pengiriman Multimedia pada Internet of Things Berbasis Jaringan Sensor Nirkabel

Penelitian Kompetitif Nasional | 2023 | Completed

Pengembangan Sistem Pengiriman Data Berbasis Machine Learning untuk Peningkatan QoE pada Multimedia Internet of Things

Riset dan Inovasi untuk Indonesia Maju | 2023 | Completed

Sistem Pengelolaan WSN pada Multimedia IoT untuk Peningkatan Quality of Service

PPMI | 2021 | Completed

Software-Defined Network pada Jaringan Sensor Nirkabel untuk Sistem Multimedia-Internet of Things (M-IoT)

Riset ITB | 2021 | Completed

Pengembangan Platform Perawatan Tanaman Hidroponik dengan Analisis Citra Digital Berbasis Algoritma CNN dan IoT

Penelitian Terapan Unggulan Perguruan Tinggi | 2020 | Completed

INTELLECTUAL PROPERTY

HydroponicSense - Computer Program Copyright, Indonesia Ministry of Law (Dec 2020)

Cat Care - Computer Program Copyright, Indonesia Ministry of Law (Mar 2019)

PROJECTS

RFID-based Student Attendance Platform

IoT-based campus attendance system using RFID and Computer Vision with QoE and accountability approach.

Technologies: IoT, RFID, Computer Vision, Python, Machine Learning

AI-based Proposal Checker Platform

AI platform for checking and evaluating proposals.

Technologies: AI, NLP, Python, Machine Learning

Cat Care System Based on Internet of Things

Internet of Things-based cat care system for automated pet monitoring and feeding.

Technologies: IoT, Arduino, Sensors, Mobile App, Cloud

Enterprise Architect for Radio-B

Designing an Enterprise Architect for Radio-B.

Technologies: Enterprise Architecture, Business Process, System Design

Integrated Health Information System

Designing integrated health information system for healthcare facilities.

Technologies: System Design, Healthcare IT, Database Design, Multimedia

Web Information System for Siete Cafe

Designing web-based information system for Siete Cafe.

Technologies: Web Design, Requirement Analysis, System Design, Database

Online Delivery System for Mulya Cirebon Chinese Food

Designing online delivery system for Chinese food restaurant.

Technologies: System Design, Service Design, Database, Web

Web-Based Hotel Reservation and Service System

Develop web-based hotel reservation and service management system.

Technologies: Web Development, PHP, MySQL, Software Engineering

Student Monitoring System for Salman Al-Farisi Primary School

Designing student monitoring and management system for primary school.

Technologies: System Design, Requirement Analysis, Database Design

Online Booking System for Futsal Field Reservation

Planning online booking system project for futsal field reservation.

Technologies: Project Management, System Planning, Scheduling

Harvest Moon Game Replica with Java

Develop replica of Harvest Moon game using Java programming.

Technologies: Java, OOP, Game Development

Flight Database Management System

Designing flight database management system for airline operations.

Technologies: Database Design, SQL, Data Modeling, ERD

AWARDS & ACHIEVEMENTS

2nd Winner of Business IT-Case Competition

Techphoria Event | Universitas Sriwijaya | National | Oct 2017

Silver Prize - Engineering Solution Contest

d-Camp 2018 | Innovation Hub Center for Engineering Education (IHCEE) Chonbuk National University | International | Aug 2018

Participant Prize - i-CAPS 2018

International Students Joint Capstone Design Project Competition | Innovation Hub Center for Engineering Education (IHCEE) Chonbuk National University | International | Aug 2018

ORGANIZATIONS

Head of Human Resource Management

Lingkung Seni Sunda (LSS) ITB | Sep 2016 - Sep 2017

Vice Head of Intra-Campus Division

Himpunan Mahasiswa Informatika (HMIF) ITB | Feb 2015 - Jan 2016

COMMITTEE EXPERIENCE

Head of Logistics Division - Arkavidia Informatics and IT Festival

HMIF ITB | 2016

Chairman - HMIF July Graduation 2016

HMIF ITB | 2016

General Secretary - New LSS ITB Member Recruitment 2015

LSS ITB | 2015

TRAINING & SPEAKING ENGAGEMENTS

IoT Instructor	Oct 2025
Samsung Innovation Campus x dibimbing.id	
IoT Mentor	Sep 2025
Samsung Innovation Campus x dibimbing.id	
Speaker at Workshop AI & Data Science	Aug 2025
Pengmas Akademi Digital Bandung	
Speaker at AI and IoT Webinar	Aug 2025
Samsung Innovation Campus x dibimbing.id	
Machine Learning Trainer	Jul 2025
Kementrian PU x UrbanSolv	
IoT Workshop Trainer	Jun 2025
Kementrian Ketenagakerjaan x dibimbing.id	
Private IoT and Data Science Teacher	May 2025
UNSA Student	
Competitive Programming Workshop Trainer	Mar 2025
Akademi Digital Bandung	
Basic Programming Workshop Trainer	Mar 2025
Personal Charity Project	

Speaker at BOOST YOUR BUSINESS: AI UNTUK UMKM NAIK KELAS	Dec 2024
Pengmas Akademi Digital Bandung	
Conference Moderator	Sep 2024
International Conference on ICT for Smart Society by ITB	
Data Analytics Workshop Trainer	Jun 2024
PT Cerebrum Edukanesia Nusantara	
Data Analytics Workshop Trainer	Mar 2024
Jasa Raharja BOD Candidate by Linxbrain	
Data Analytics Workshop Trainer	Dec 2023
Diskominfo Employee by Enclave Kolaborasi Global	
Data Analytics Workshop Trainer	Sep 2023
FEUNM	
Data Analytics Workshop Trainer	Aug 2023
Diskominfo Employee	
Webinar Speaker in AI Topic	Jul 2023
UNIBI	
IoT Trainer	Feb 2023
SMKN 2 Sukoharjo	
Back Office Trainer	Jan 2023
Daarut Tauhid Boarding School for Female	
Data Science Trainer	Aug 2022
HMP PL ITB Komisariat 2022/2023	
Excel Trainer	Nov 2020
Daarut Tauhid Boarding School Civitas Upgrading	
IoT Facilitator	Sep 2019
Digital Talent Program by Kominfo at ITB	
IoT Facilitator	Jul 2019
Digital Talent Program by Kominfo at ITB	
FGD Speaker: Fundamental AI and IoT	Oct 2025
Politeknik Negeri Cilacap
